

My name is Helena Arvidsson and I am from Sweden. I am 12-year-old and study in Grade 6 in Adolf Fredriks music school in Stockholm. I love classical music and started to play piano when I was five and an half year old. Through piano playing I learn to feel the the power and emotions in every piece and learn to obtain the ability to appreciate the beauty of classical music. Piano playing give me many challenges but at the same time give me many unforgettable personal experiences. Besides playing piano, I also love to sing, to read books and to travel.
